

Testing Protocol

Expected result: Application runs smoothly and the key features function appropriately

Features:

Education/ Learn page

- Enter page
- Ensure that there is information about Snorkeling easily visible for the user

Location Based cards

- Enter page
- Ensure that cards are working for different views (desktop, tablet, iPhone, etc.)
- Check that cards accurately contain information based on location
- Check that images populate correctly
- Ensure that the filter in the locate page is working correctly
- Check that icons are populating correctly

Donate Page

- Enter page
- Ensure that there is information on places to donate for users interested in donating to organizations.

Landing Page

- Landing page work for all different sizes

Known bugs:

- Search bar doesn't work on Landing page as well as on Locate page
 - Workaround: redirects user to locate page and then autofills for information about Oahu
